Percentage

85% / 100

PROJECTS

Hotel Listing Website

🌐 <https://hotel-listing-elxu.onrender.com/listings>

Full Stack and Deployed Project for a hotel listing website.

- Users can browse through a list of hotels with details such as name, location, price, and images
- Authenticated users can add new hotel listings by providing necessary details and uploading images
- Users have the ability to edit or delete their own hotel listings
- The application includes user registration and login functionalities to manage user sessions and permissions
- Integration with Cloudinary allows users to upload and manage hotel images efficiently
